It is the policy of Finger Lakes Community College to maintain and support a comprehensive institutional improvement process as a means to assess and improve the total range of programs and services at the institution. The College's ongoing institutional effectiveness and planning activities are designed to answer the question, "Is the College fulfilling its mission and achieving its goals?" The College is committed to assessing the effectiveness of all institutional functions on a regular and ongoing basis, with the highest priority placed on the assessment of student learning.

The assessment of institutional effectiveness at FLCC is designed to be useful; cost-effective; accurate and truthful; carefully planned; and organized, systematic and sustainable. Assessment activities

ment and training in outcomes assessment, along with ongoing institutional guidance and support
Coordinator and the Director of Institutional Effectiveness, are provided for all employees who are
