

## Syllabus

### CON 234 Laws for the Management of Air Resources, Solid Waste and Hazardous Substances

#### General Information

---

**Date** May 22nd, 2019

**Author** Patricia Thompson

**Department** Conservation

**Course Prefix** CON

**Course Number** 234

**Course Title** Laws for the Management of Air Resources, Solid Waste and Hazardous Substances

#### Course Information

---

**Catalog Description** This course focuses on New York State and Federal laws for the protection of air resources, the management of solid waste and regulation of substances harmful to the environment. Students will study the New York State Environmental Conservation Law as it relates to protection of air resources, the management, transportation and disposal of solid and hazardous waste and the use of substances potentially hazardous to the environment such as pesticides. Students will also study related federal statutes including the Clean Air Act, NEPA and CERCLA. Students will be introduced to potential careers through the study of relevant local, state and federal regulatory agencies.

**Credit Hours** 3

**Lecture Contact Hours** 3

**Lab Contact Hours** 0

**Other Contact Hours** 0

**Grading Scheme** Letter
